LCC Goals

- Region – Lead the region into the 21st century (3), reenergize our economy and stimulate a new era of regional prosperity (3), and serve the region well (12)
    - Assist in the region's economic development (1)
    - Help the region transition into a more knowledge-based workforce (1)
    - Retain industrial workers for new high-tech jobs (3)
- Quality and Access
    - Put LCC "*on the map*" as the best, most affordable option <u>in the state</u> to pursue a <u>nursing</u> degree or certificate (6)
    - Enhance classroom and laboratory technologies for the college's <u>science</u> classes (10)
    - Put LCC on the map and equip us with the resources to provide the <u>best</u>, most <u>affordable</u> education for our students (12)
- Growth – Expand <u>programs</u> (14)
- Internal Capacity – Develop faculty leaders (11)

LCC Strategies

- Develop and implement Guided Pathways (1)
    - Collaborate with other colleges and universities in the region (1)
    - Fund scholarships to LCC graduates, especially underrepresented students, who transfer to neighboring All-State University (A-SU) (1)
    - Providing support services such as tutoring and career development for LCC students hoping to transfer into A-SU (1)
    - Co-sponsor after-school and summer workshops about career and academic opportunities for area high school students (1)
    - Strengthen existing dual credit programs with local K-12 school systems (4)
    - Develop stronger relationships with regional business executives and richer partnerships with local businesses (4)
    - Businesses will sponsor faculty and host faculty "field sabbaticals" to provide applied experiences as a potential partnership (4)
    - Host student internships and career development seminars for students (4)
    - Collaborate on curriculum development for Guided Pathways disciplines (4)
    - Promote transfer opportunities for LCC graduates (4)
    - Support faculty development, curriculum development/alignment, advisement, and student services on grant proposals (4)
    - Offer teaching internships to A-SU Master's students at LCC and develop a one-year teaching academy that will serve as a recruiting pipeline for talented, mid-career professionals interested in experiencing teaching careers (12)
    - Use part-time faculty for efficiency(14)
    - Prepare a grant totaling $1.1 million, partner with regional businesses, and the state economic development agency offer opportunities for future revenues (14)
    - Expand LCC's modest endowment – explore how best to leverage interest in the Williams Community Recreation Center as the foundation prepares to launch a capital campaign in 2020 (14)
- STEM initiative (10)
    - Build Schechter Science Center (10)
