In a time of increasing incivility, vitriol, and political unrest, we need to be more aware of how we can be a part of healing solutions of understanding and respect. Dr. Reyes will introduce four lenses that can help us dignify the human experience not only for our students but for our colleagues and community. At our core, humans want to feel safe, find community, and have a purpose. This workshop explores how we can meaningfully and effectively engage with difference so that we can help one another in the pursuit of these desires.</i></p>
