

Amy Azul

About Me

I am quite familiar with the community college experience. I graduated from Chaffey College with an associate's degree in general education and then transferred to Cal State University, San Bernardino. While attending Cal State, I majored in liberal studies (elementary education) with an emphasis in English. After I received my bachelor's degree, I worked as a substitute teacher for the San Bernardino City Unified School District and the Chaffey College Writing Center where I worked as a tutor, mentor tutor, and workshop instructor. After receiving my master's degree in English from Cal Poly University, Pomona, I began

teaching English and E.S.L. at various community colleges across Southern California and now have over twenty years of experience. At Mt. San Antonio College, I taught English and worked in the Writing Center as an hourly instructor, tutorial specialist, coordinator of the DLA program, and coordinator of the Tutors in the Classroom program from 2003 to 2017. I worked at Victor Valley College as the Director of Tutoring and Academic Support from 2017 to 2021. In 2022 I began working as an instructional dean for the School of Science, Technology, Engineering, and Mathematics. In addition to my passion for teaching, I like to learn languages and am fluent in English and German. Growing up in Southern California, I learned a great deal of Spanish, and I am currently learning Tagalog. I am a wife and mother of a seventeen-year-old boy, a fourteen-year-old girl, a ten-year-old boy, an eight-year-old girl, and a six-year-old boy. As if I wasn't busy enough, I also direct a choir in the High Desert.

Elijah, Noel, Leah, Max, Johnny, Me, and Katie

The Leadership

Writing Center tutor, instructor, specialist, and coordinator

English and ESL Instructor

Instructional Dean, School of Science, Technology, Engineering, and Mathematics

Tutoring and Academic Support Director

A Huge Disney Fan

I am a huge Disney fan. I enjoy visiting the Disneyland Resort several times a month to decompress and enjoy magical moments with my family.

Choir and Time at the Lake

I have recently completed my coursework for a PhD in Higher Education. my research explores the role of mindset in student thriving for community college STEM students.
