Employees

[AB 374](#) (Nguyen)

Amended Date: 08/29/2025

Title: K-14 Classified Employees: Payment of Wages: Itemized Statements

Status: Vetoed by the Governor

Position:

Summary:

Starting in 2026-27, this bill would have required public school employers, including community college districts, to provide classified employees with paystubs that include specified information, including gross wages earned, all deductions, net wages earned, applicable hourly rates in effect during the payroll reporting period and the corresponding number of hours worked, and total hours of paid and unpaid leave taken during the payroll reporting period.

The Governor's veto message states in part:

I am returning Assembly Bill 374 without my signature.

This bill, starting with the 2026-27 school year, requires public school employers and community college districts to provide specified, detailed itemized wage statements to classified employees. The bill also requires employers to maintain deduction records for three years and provide employees access to employment records within 21 days of request.

While the author's goal is laudable, the associated costs of implementation are estimated at tens of millions of dollars and are not accounted for in the state budget. The bill's sponsors have identified a problem with some employers not providing their classified employees with timely wage and leave information, and I encourage them to work with school employers to find a less costly solution.

In partnership with the Legislature this year, my Administration has enacted a balanced budget that recognizes the challenging fiscal landscape our state faces while maintaining our commitment to working families and our most vulnerable communities. With significant fiscal pressures and the federal government's hostile economic policies, it is vital that we remain disciplined when considering bills with significant fiscal implications that are not included in the budget, such as this measure.

Title: Elections: Local Tax Measures

Status: Vetoed by the Governor

Position:

Summary:

This bill would have required, upon request, a local elections official to include on the ballot label, for certain local tax or bond measures, a statement directing voters to the county voter information guide for required tax rate information, in lieu of providing the information directly on the ballot label.

The Governor's veto message states in part:

I am returning Assembly Bill 699 without my signature.

This bill would allow a local elections official to include on the ballot label, for certain local tax or bond measures, a statement directing voters to the county voter information guide for required tax rate information in lieu of providing the information directly on the ballot label.

While I appreciate the author's intent to provide local agencies with the flexibility to select an alternative tax rate disclosure option, I am concerned that this bill, as drafted, will reduce transparency for local tax and bond measures.

Instruction

[AB 1400 \(Soria\)](#)

Amended Date: 08/29/2025

Title: Community Colleges: Baccalaureate Degree in Nursing Pilot Program

Status: Vetoed by the Governor

Position: Support

Summary:

This bill would have required the California Community Colleges Chancellor's Office (CCCCO) to develop a Baccalaureate Degree in Nursing Pilot Program that authorized select community college districts (CCDs) to offer a Bachelor of Science in Nursing degree. The bill would have limited the pilot program to ten CCDs statewide and required the CCCCCO to identify and select eligible CCDs based on specified criteria. The bill would have required the CCCCCO to develop a process designed to assist CCDs with nursing programs that are applying for national accreditation for the purpose of qualifying for the pilot program, as provided. The bill would have required each participating CCD to give priority registration for enrollment in the pilot program to students with an associate degree in nursing from that CCD. The program would have sunset on January 1, 2035.

The Governor's veto message states in part:

This bill requires the California Community College (CCC) Chancellor's Office to establish a Community College Baccalaureate Degree in Nursing Pilot Program that would authorize 10 community college districts to offer a Bachelor of Science in Nursing (BSN) degree.

Last year, I vetoed a nearly identical bill, citing two primary reasons that continue to persist.

First, the 2024 Budget Agreement included \$60 million per year, from 2025-26 to 2028-29, for the Rebuilding Nursing Infrastructure Grant Program, which may be used to develop or expand BSN partnerships with UC, CSU, and independent nonprofit higher education institutions. These partnerships have proven successful in expanding BSN access for community college students and increasing the number of BSN degree recipients. All segments of higher education must continue to collaborate on building these programs, and returning this bill will ensure those collaborative efforts are not undermined.

Second, in recent years, both the CCC and the CSU have been authorized to offer independent programs outside of their traditional roles, provided they do not duplicate degree offerings of other public segments. I encourage the CCC system to focus on implementing this expanded authority and to ensure that it can continue to make progress on the unique and vital role the CCC plays in serving its students and the state. Given these significant changes, a pause should be maintained to understand their full impact before additional authorities are granted.

Student Services

[SB 761](#) (Ashby)

Amended Date: 09/03/2025

Title: CalFresh: Student Eligibility

Status: Vetoed by the Governor

Position:

Summary:

This bill would have expanded the definition of a state-approved local educational program that increases employability to include any program offered by a community college, California State University, or University of California and would establish a data-sharing and consent requirement for the sharing of student information from the California Student Aid Commission to the California Department of Social Services for CalFresh outreach to students.

The Governor's veto message states in part:

This bill requires the California Student Aid Commission (CSAC) to amend its Grant Delivery System to ensure students who may be eligible for CalFresh are identified. The bill also requires data-sharing agreements between CSAC and the California Department of Social Services (COSS), as well as between county welfare departments and the systemwide offices of the public postsecondary education systems, for the purpose of conducting direct outreach to students about CalFresh eligibility.

I strongly support the author's goal of expanding eligible college student participation in the CalFresh program and applaud the author for her commitment to this issue. However, as drafted, this bill contains significant policy and implementation challenges with respect to the required data-sharing agreements. I encourage the author to work with COSS on a more implementable solution that reduces both privacy risks and the complexity of creating new data-sharing systems across multiple agencies.

Position:

Summary:

This urgency measure would have provided, until January 1, 2030, an exemption from nonresident tuition for community college students who were deported on or after January 1, 2025, and later reenroll in either an online or in-person community college program if the student was previously enrolled and was not paying nonresident tuition at the time of their departure. Additionally, the bill would have required the student to provide an attestation with information on the conditions of their departure.

The Governor's veto message states in part:

I am returning Assembly Bill 695 without my signature.

This bill provides an exemption until January 1, 2030, from nonresident tuition for community college students who were deported on or after the specified date and later reenroll in either an online or in-person community college program, if the student was previously enrolled and was not paying nonresident tuition at the time of their departure.

I thank the author for his commitment to providing hope to students harmed by the Trump Administration's indiscriminate attack on our immigrant communities. I am proud of the actions and laws that we have adopted in this state to protect, educate, and recognize the value that our immigrant students and their families bring to California. Unfortunately, as drafted, this proposal only benefits immigrant students who voluntarily or involuntarily depart the U.S and thus the state, and not also residents of other states, raising significant constitutional concerns.
