Position:

Summary:

Current law prohibits campuses of the state's higher education segments from charging mandatory systemwide tuition or fees to specified students who apply for a waiver, including a child of any veteran of the United States military who has a service-connected disability, has been killed in service, or has died of a service-connected disability, where the annual income of the child, including the value of any support received from a parent, does not exceed the national poverty level. This bill would instead require that the annual income of the child not exceed the state poverty level.
